

DR. GERARD GIBBONS
Author, CEO Fight For Glory, LLC.

Dr. Gerard Gibbons is a noted non-fiction author, storyteller, producer and historian. After 30+ years as an award-winning filmmaker and brand strategist, he has turned his attention toward his own family legacy and the never-been-told, true story of his legendary prizefighting great uncle and grandfather, Mike and Tommy Gibbons. He is now CEO of Fight For Glory, LLC and is developing a series of stories, designed for literary, streaming and cinema, based on his famous family.

Dr. Gibbons, formerly CEO/Founder of Visual Eyes Inc., spawned a novel communications agency focused on HD video, multimedia, human engagement, and behavior change. Gibbons' exploits carried him around the world with the U.S. Department of Defense, Special Operations Command, Fortune 500 companies, Walt Disney, Special Olympics, government agencies, as well as advanced science, medical and technology companies.

Today, Dr. Gibbons — an avid photographer, guitarist, backpacker, and fly fisherman — spends much of his time near Joshua Tree, California. His motto, borrowed from his dad and grandfather, “Comport yourself with elegance and moderate your pace.”
